-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

DETAILED ACTION

Continued Examination Under 37 CFR 1.114

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on May 8, 2007 has been entered.

Response to Amendment

2. The Amendment filed on April 12, 2007, has been entered. Claims 1 and 5 have been amended. Claims 1 – 10 are pending. Claim 8 is withdrawn from consideration as being drawn to a nonelected invention.

3. The 35 USC 102/103 rejection based on Yoneda et al. (2003/0022575 A1) is withdrawn since Yoneda et al. fails to teach that the second find is less than or equal to the size of the first but greater than 1/1.76 the size of the first fiber.

Claim Rejections - 35 USC § 112

4. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

5. Claims 1 – 7, 9, and 10 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention. The disclosure fails to provide support for the limitation for the limitation that is both less than or equal to microfiber A and microfiber B is greater than 1/1.76 of the size of microfiber A. It is noted that the ratio of the fibers used in example 1 has a ratio of 1/1.76. However, this example does not provide a teaching that this is the

Art Unit: 1771

desired minimum size ratio that microfiber B can be. Nor is there any suggestion that the ratio of the fiber sizes is important to the invention other than the relative comparison that microfiber A is larger than or equal to the size of microfiber B. While the disclosure discusses that microfiber B is equal to or less than the size of microfiber A and that microfiber A is preferably less than 0.5 dtex and microfiber B is preferably between 0.001 to 0.3 dtex (specification, page 6), the disclosure provides no clear teaching for the claimed range and that microfiber B must be greater than $1/1.76$ microfiber A. And further, the disclosure provides any teaching, other than the fact that the fiber has a preferred lower limit of 0.001 dtex, that the invention requires a minimum limit for the size of microfiber B. Therefore, this limitation is considered new matter.

Conclusion

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Jenna-Leigh Befumo whose telephone number is (571) 272-1472. The examiner can normally be reached on Monday - Friday (8:00 - 5:30).

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Terrel Morris can be reached on (571) 272-1478. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
